

"CAMPAIGN OF SLANDER NO ANSWER TO GOOD LEGISLATION"—PREMIER SIFTON

Cabinet Ministers' Opinions on Results of Battle Tomorrow

All Look for Great Liberal Victory Throughout Province—Premier Sifton Says That There Are Only Six True Conservatives Seats, With Six More in the Doubtful Column

In answer to a request for the Bulletin for his estimate of the result of the elections, and also for his final message to the electors, Premier Sifton, wired last night from Manville, as follows:

"Final reports from all constituencies show as follows: In six, the Opposition has a better chance than the Government. Right seats are doubtful, with eleven for the Government. The remaining forty seats are considered safe, of them with majorities reaching from fifty to one hundred and fifty, and thirty with majorities ranging from one hundred and fifty to six hundred. Three or four will probably do better than this."

"These estimates are safe providing voters who favor the Government cast their ballots, and I confidently ask all such to show by the size of the majorities that a campaign of slander and misrepresentation is no answer to good work and good legislation."

(Signed) Arthur L. Sifton

What will be the result of the provincial election? That is the question that is on everybody's lips. For the past two or three weeks the campaign lines have formed the principal topic of conversation, and the heads for many aggressive battles. But the significance of the contest is the wordy warfare of the street and club is now almost over. The hard-fought campaign, the budding leaders, has had its little day, and the voters are now to give their verdict.

What will it be? It is impossible to accurately foretell. But in order to give Bulletin readers an idea of what the principal members of the government think of the situation, now that the smoke of battle has nearly blown away, the Bulletin telegraphed to the premier and cabinet ministers their opinions, and they are given below.

All the opinions are couched in optimistic terms. The Hon. J. R. Boyle takes the most rosy view of the situation. He believes that the Conservatives will be very lucky if they increase their representation in the new House. On the other hand, the Hon. Duncan Marshall, who has had a large number of the constituencies, where it is generally conceded that the opposition can

ELECTION RETURNS.

As soon as the provincial election results are received on Thursday night, they will be sent to the Bulletin. The premier, however, opposite the House of Commons, by means of a stereograph. Elaborate arrangements have been made by the Bulletin for full and complete returns from all sections of the province.

Borden Government Brought Strikebreakers To Canada

Discussion in Ottawa House Reveals Action Taken by Departments of Labor and Immigration—Closure Debate Is Continued During the Evening Session

By Bulletin Leased Wire. Ottawa, April 15.—The first break on the debate on the closure question was made by the Hon. J. R. Boyle, who introduced a resolution on Wednesday last, which was taken up by the House of Commons.

Mr. Boyle, Cape Breton, moved the adjournment of the House to discuss the action of the departments of labor and immigration in connection with the bringing into Canada of men to contravene to engage in a strike in Toronto and Montreal. He contended that the law should be enforced to prevent men from entering Canada in contravention of the law, and that Hon. W. E. Crothers, who has charge of both the labor and immigration departments at present, had failed in his duty to the nation.

The minister denied the truth of these allegations. He said that nothing within reason had been done by the department which he had been charged by a judgment given in the courts. He had administered to the best of his ability the law which had been passed by the late government, and which was being enforced by officials appointed by that government. He suggested the possibility that attendance to the law might be advisable.

Major G. L. W. Crothers, who is in charge of the labor and immigration departments at present, had failed in his duty to the nation.

Campaign Roarback Given Most Emphatic Denial

Premier Sifton, Hon. C. W. Cross and R. L. Shaw, Stettler, Parties Concerned in Latest Falschod of Southern Press, Stamp Statement Attributed to One A. G. Harlan as Pure Buncombe

This is the reason of the campaign roarback. Premier Sifton has been the victim of a good deal of misrepresentation on the part of the newspapers. He has been accused of being interested in coal mines which would be benefited by proposed railway lines. He has been charged with interfering in the construction of a railway line for the benefit of a distant relative. These imputations have been answered, but now, at the hour, he has been charged with the same thing.

As To Provincial Control Of the Natural Resources

Exposition speakers at a meeting in this vicinity are reported as trying to give the impression that the provincial government had made no representations to the Ottawa conference regarding the control of the natural resources within the province.

At the present session Premier Sifton announced that the resolution passed by the Legislature in 1911 on this subject had not been forwarded to Ottawa, such action not having been ordered by the Legislature. He had, however, forwarded to Premier Borden a letter which had been forwarded to Premier Borden.

Edmonton, November 8, 1911.

Dear Sir: Enclosed please find copy of letter sent to Sir Wilfrid Laurier on 28th of March last, and a copy of the letter sent to the Assembly of Alberta, copy of which resolution is set forth in the letter.

It will be unnecessary to enlarge at present upon the argument contained therein in regard to granting the Province of Alberta a natural resource within its boundaries, but I thought better to draw the matter specifically to your attention before your session opened, as the question might be under discussion, and to assure you, in advance, I was on behalf of the Legislature, all there is no difference of opinion in regard to the desirability of following out the suggestion contained in my letter.

It was planned to send that your view on a report are very much along the same lines, and I would be pleased to arrange for an interview with you on the subject of any time it may be convenient to you.

Yours very truly, ARTHUR L. SIFTON.

Ottawa, November 14, 1911.

Dear Sir: I beg to acknowledge your letter of the 8th inst., enclosing copy of a resolution of the Legislative Assembly of Alberta. The conditions which are set forth will, I think, be of great value to the Province.

Since that time nothing further has been heard from the Ottawa government on the subject.

NO IMMEDIATE EFFECT ON THE COST OF LIVING

President Wilson Hopes by New Tariff Bill to Insure Competition Which Eventually Will Wipe Out Present Artificial Prices.

Washington, April 15.—In a talk with newspaper men, President Wilson explained his reasons for insisting on a 25 per cent reduction in the tariff on sugar for three years and then free sugar. Chief of these reasons was the benefit that would accrue to the consumer.

President Wilson said he did not believe there would be an immediate benefit from the reduction in the tariff on the other articles in the present bill. He called attention to the fact that in some of the speeches made during the campaign he said that he did not expect tariff revision to bring about an immediate reduction of the cost of living, but that he did expect it to bring about a competitive situation that would make it impossible for combination to maintain the present artificial level of the prices.

Reduction in Cost of Living.

The president expects a reduction of the cost of living amount of labor to follow the reduction of the tariff—a lowering of prices as a result of competition. It is competition, the president said, that the Democrats are seeking.

The president said that if the reciprocity feature of the bill should be enacted he would attempt to negotiate certain reciprocity treaties as soon as possible. Confidence was expressed by Mr. Wilson that the tariff bill, as now before congress, meets the approval of the people. He alluded to the interests which disapproved it as probably quite numerous, but said he felt sure the great disinterested public would have no axe to grind would regard it as a fair bill.

No Business Depression.

Business depression will not follow the enactment of the Underwood bill, is the belief of the president. He said he saw no reason why there should be any business depression that he was confident business would go on without interruption. He added the opinion that if it came it would be closed down, it would be for effect, and that the factors would reopen for business later on.

FREE FLOUR OPPOSED BY BORDER MEMBERS

Consideration of Tariff Bill Proceeding Slowly, and it Will Not Be Ready for Senate by May 1st. The Date Predicted by Administration Leaders.

Washington, April 15.—Slow progress in the consideration of the new tariff bill by the House of Representatives has upset the early prediction of the administration that the bill will be ready for the senate on May 1st.

Today the caucus remained consideration of the agricultural schedule, which being first came under consideration. The free trade of flour, declaring it inconsistent with a proposed duty of ten cents a bushel on wheat, Citrus fruits also were the target for opposition as well as the free listing of potatoes.

When the deliberations were over today, most members predicted that the caucus would not be through the bill until the end of the month. It is in that case its consideration in the House cannot begin until late in the week and the prospect is that it will be no nearer June 1st than May 1st, before the bill is ready for the senate.

Chairman Underwood was sufficiently recovered from his illness to take charge of the bill in the afternoon, although his friends urged him to return home until another week. He was anxious to give the administration measure through the caucus, however, and to let the House take as much as possible, that he remained on the floor in spite of his illness. Representative Fowler, of Illinois, offered an amendment to increase the proposed duty on wheat from 10 cents to 15 cents a bushel.

NOT MONGOLIANS AND CLAIM CITIZENSHIP

Such is Stand of Japan on Civic Eligibility Question, and as the Result of President's Executive Order, Japanese Will Be Presented to Supreme Court.

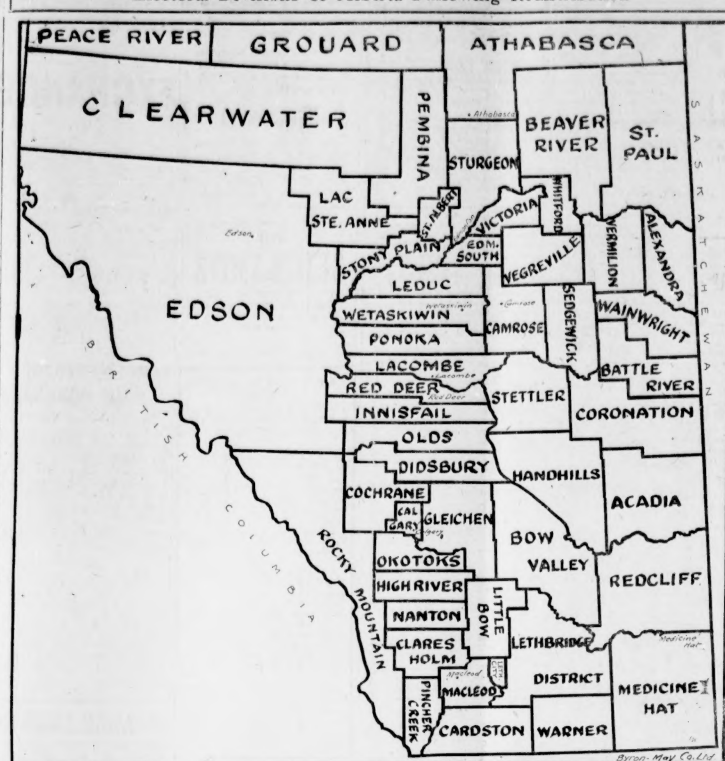

Tokio, April 15.—The Japanese cabinet reported to the emperor today that President Woodrow Wilson's decision not to interfere with the Japanese land ownership legislation makes it necessary for Japan to present a test case before the supreme court of the United States, proving that the Japanese are not of Mongolian origin and therefore are entitled to assume citizenship of the United States.

Washington, April 15.—The general opinion in unofficial circles is that the administration would welcome a test in the supreme court on the question of the eligibility of the Japanese to naturalization. So far all decisions of recent months in regard to this have held that the Japanese were of Mongolian origin.

The shareholders approved the report.

CONDUCTORS DEMANDS CANNOT BE CONCEDED

C. N. R. Railway Officials Claim Conductors Demands Are Such As Do Not Obtain on Any Railway in America.

Toronto, April 14.—No railroad in the United States or Canada has ever granted such a command as the conductors are making of the Canadian Northern railroad in the Northwest, claims the company in its reply to the conductors, who ask more wages.

The conductors ask for \$4.17 per hundred miles, with a monthly minimum of 3,000 miles in its reply to the conductors, who claim that the company, namely, \$148.50 for a minimum of 3,000 miles, as other railways carrying in direct competition to it, either the G.T.P. or the C.P.R.

J. Harvey Hall, representing the conductors on the negotiation board, replied to Mr. Croes, of the company, that the company had asked for a 25 per cent. increase, the cost of living has gone up 200 per cent. in some instances.

The ten auditors are constantly relieving the conductors of the passenger trains of much of their most disagreeable duties.

No settlement has yet been reached among the board of arbitration, although Dr. H. Hanna, third vice-president of the C. N. R., is in moderate expectation of a word from them.
